

Perri's
Leathers Ltd.

CAMERA STRAPS
SUMMER FALL 2022

Perri's Leathers Ltd. is a Toronto-based company and one of the leading manufacturers of musical instrument accessories. While over the last 20 years our company has manufactured products for some of the most respected and established musical instrument companies, we have expanded our focus and passion for manufacturing to other industries as well. This includes the development and production of an extensive product catalogue for camera straps.

By utilizing the key principles of lean manufacturing and 5S, our company is able to successfully execute on mass volume, scale and scope production, without ever compromising quality. We consistently adhere to the industry's highest standards, which ultimately translates to knowing that our clients can be confident in our products and services.

The Perri's Leathers customer experience priority is simple. We will always work with our clients to ensure needs are not only met, but exceeded.

We thank you for doing business with us and supporting our company.

ANTHONY PERRI
President

JACQUARD

Perris's Jacquard straps feature colourful woven patterns and genuine leather ends, giving these straps a vintage look. The jacquard is durable, strong, and wrinkle-resistant, with an adjustable length from 45" to 55" long, so the camera rests where you want it. The 2" width reduces irritation on your neck and absorbs the weight of the camera in use. These straps are compatible with most camera types: film, SLR, DSLR, and Mirrorless.

CROSS-BODY

Designed with an adjustable length to be worn either cross-body or around the neck offering photographers flexibility. The cross-body strap allows the weight to be distributed evenly on the shoulders so the camera can be worn comfortably for longer periods. The cross-body length keeps the camera closer to the body making it easier to walk through crowds and eliminating unnecessary bobbing which can lead to fatigue. This strap can be used with most camera types: film, SLR, DSLR, and Mirrorless.
